

Create Your Own Caddisfly Larva & Case

Supplies

- Caddisfly larva & case printouts or two pieces of paper
- Scissors
- Glue (liquid if attaching 3D items, otherwise a glue stick will work)
- Tape
- Decorating items to camouflage

Please remember when collecting from outdoors only take items that meet the 3Ds; dead, detached and decomposing. We are collecting, not picking!

Please ask an adult for help before using scissors.
